

Department of Veterans Affairs

§ 17.103

paragraph (f) of this section and the second sentence of this paragraph, charges at rates prescribed by the Office of Management and Budget shall be made for any inpatient or outpatient care or services authorized for a member of the Armed Forces on active duty or for any beneficiary or designee of any other Federal agency. Charges for services provided a member or former member of a uniformed service who is entitled to retired or retainer pay, or equivalent pay, will be at rates prescribed by the Secretary (E.O. 11609, dated July 22, 1971, 36 FR 13747), or

(d) *Furnished pensioners of allied nations.* Charges at rates prescribed by the Under Secretary for Health shall be made for any inpatient or outpatient care or services rendered a pensioner of a nation allied with the United States in World War I and World War II; or

(e) *Furnished under sharing agreements.* Charges at rates agreed upon in an agreement for sharing specialized medical resources shall be made for all medical care or services, either on an inpatient or outpatient basis, rendered to a person designated by the other party to the agreement as a patient to be benefited under the agreement; or

(f) *Furnished military retirees with chronic disability.* Charges for subsistence at rates prescribed by the Under Secretary for Health shall be made for the period during which hospital care is rendered when such care is rendered to a member or former member of the Armed Forces required to pay the subsistence rate under § 17.47 (b)(2) and (c)(2).

(g) *Furnished for research purposes.* Charges will not be made for medical services, including transportation, furnished as part of an approved Department of Veterans Affairs research project, except that if the services are furnished to a person who is not eligible for the services as a veteran, the medical care appropriation shall be reimbursed from the research appropriation at the same rates used for billings under paragraph (b) of this section.

(h) *Computation of charges.* The method for computing the charges under § 17.86 and under paragraphs (a), (b), (d), (f), and (g) and the last sentence of paragraph (c) of this section is based on

the Monthly Program Cost Report (MPCR), which sets forth the actual basic costs and per diem rates by type of inpatient care, and actual basic costs and rates for outpatient care visits or prescriptions filled. Factors for depreciation of buildings and equipment and Central Office overhead are added, based on accounting manual instructions. Additional factors are added for interest on capital investment and for standard fringe benefit costs covering government employee retirement and disability costs. The current year billing rates are projected on prior year actual rates by applying the budgeted percentage increase. In addition, based on the detail available in the MPCR, VA intends to, on each bill break down the all-inclusive rate into its three principal components; namely, physician cost, ancillary services cost, and nursing, room and board cost. The rates generated by the foregoing methodology will be published by either VA or OMB in the 'Notices' section of the FEDERAL REGISTER.
